

China-Biotics Expands Product Supplied to Bright Dairy

SHANGHAI, March 17, 2011 -- China-Biotics, Inc. (Nasdaq: CHBT- News) ("China-Biotics" or "the Company"), the leading developer, manufacturer and distributor of probiotics products in China, today announced that the Company has expanded its categories of strain formula supplied to Bright Dairy.

China-Biotics has recently added 3 new strain formulas that it supplies to Bright Dairy, one of the top 3 dairy enterprises in China. These new formulas will be used in Bright Dairy's highly anticipated premium yogurt product lines.

This expansion of supplied formula is a direct reflection of the Company's GMP-certified production techniques, technical safety and quality assurance, as Bright Dairy maintains one of the most stringent inspection processes in the industry.

Mr. Jinan Song, CEO and Chairman of CHBT, commented, "We are very pleased to have expanded our products supplied to Bright Dairy, a top three dairy producer in China. Our undivided efforts on R&D and developing customized solutions for different dairy companies are starting to pay off. We remain focused on transitioning to our B2B business model and intend to expand our market share in China."

"Our current stock price does not reflect our long-term value and premium product quality in a large addressable market capable of sustaining rapid growth. Management will continue to focus on optimizing business operations and market expansion. We remain confident that, in the long run, our strategic position and ability to create value will be recognized by the US investment community."

About China-Biotics

China-Biotics, Inc. ("China-Biotics" or "the Company"), a leading manufacturer of biotechnology products and supplements, engages in the research, development, marketing and distribution of probiotics dietary supplements in China. Through its wholly owned subsidiaries, Shanghai Shining Biotechnology Co., Ltd. and Growing Bioengineering (Shanghai) Co. Ltd., the Company develops and produces a proprietary product portfolio. Currently, its retail products are sold over the counter, mainly through large distributors, to pharmacies and supermarkets in Beijing, Shanghai, and Jiangsu and Zhejiang provinces. The Company also sells bulk products to institutional customers such as dairy and animal feed producers as well as pharmaceutical companies. In February 2010, China-Biotics began its commercial production in China's largest probiotics production facility to meet the growing demand in China.
